## Installation Guide

**1**

Standard Vesa75/100  
Wall mount bracket

Wall mount bracket is mounted on the wall by using dowels and dowels screws (1) in the package.

**2**

Touch screen ticket dispenser is mounted on the wall mount bracket from vESA75/100 holes (3) by screws.

Vertical and horizontal alignment should be made by alignment screw (2) after ticket dispenser mounted on the bracket.

**3**

Back plastic cover for HW section

Remove plastic head screws (4) from back and remove plastic cover from ticket dispenser.

**4**

Connect LAN cable to ethernet socket (5).  
If RS485 hardware will be used together with your system, connect RS485 HW cable (RJ11) to data socket (6).

**5**

The cables are passed through the gaps from plastic cover as in figure then cover is closed.  
Plastic cover is fixed again with plastic head covers (4).

**6**

Connect 220V AC power cable to power socket then press power switch (7) to operate system.
