QUICK INSTALLATION GUIDE

1

Open the back cover on the back of the device with the Q-smart ticket machine key.

2

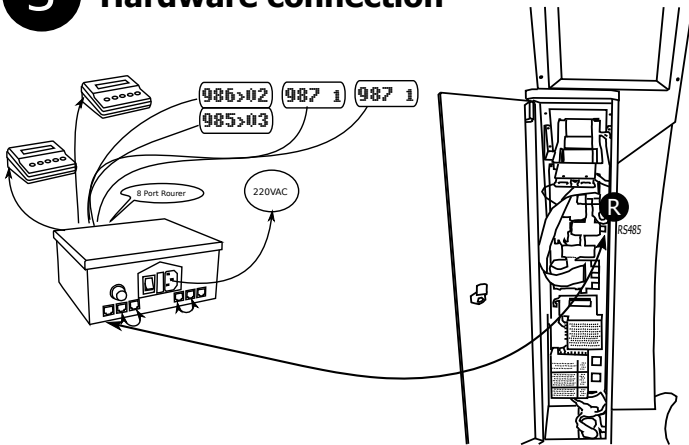

Network connection

Connect the Ethernet output of the ticket machine to your modem, shown as (L) in the picture. You can find the IP address of the device on the screen when the application starting.

3

Hardware connection

Connect the RS485 converter output of the ticket dispenser, shown with (R), to the Router with using the Q-smart hardware cable.

4

Power connection

After making all connections, close the cover on the back of the device. Connect the device to 220V AC.

5

Paper loading

Open the back cover (1) with the Q-smart ticket machine key. Unscrew the screw in section (2) and pull the rail towards you. Load paper in section (3).

6

Operation

Push the printer rail forward and close the screw. Close the cover as shown in the picture (1) and lock the cover with Q-smart ticket machine key. Power On device.
